## About the Mercia Swan

The Mercia Swan is a purpose built 12.8 metre by 3.0 metre widebeam boat, with a cruiser style stern. It is powered by a new 42 hp Canaline engine and is newly painted and refurbished for the 2016 season. You can relax in style on the comfortable seating, either inside or out and enjoy the scenery passing by. If the weather should turn we can close off the bow doors and switch on the heating. For your convenience we have a flush toilet and wash hand basin. A full safety package is carried aboard and a safety instruction is given prior to each sailing.

A warm welcome to Mercia Swan Canal Boat Trips. We are based at Mercia Marina Willington in the beautiful County of Derbyshire within Europe's largest inland marina. Join us for a leisurely cruise along the picturesque Trent and Mersey canal and escape for a while from the hurly burly of our modern day hectic lifestyle. We offer a regular return service (unless prior booked for private charter) from the marina to the local village of Willington or alternatively a longer trip to Stenson Lock in the opposite direction, where you can refresh yourself with a drink at the Stenson Bubble Inn or maybe tea and cake at the Stenson Lock Cafe.

We are also available for private charters of up to 12 people, and always will try to cater for most requirements. On the private charters we are able to venture further afield.

The marina has an award winning development, The Boardwalk, with its range of shops which include The Butcher Baker and Ice Cream Maker, Elegant Touch and Beauty, Zing Furniture, Bluewater Clothing, Molly & Co, White Finn Clothing and The Boardwalk Bar and Dining. Also on site is the New and Used Boat Co, Still Waters Convenience Store, Aqua Narrowboats, The Mug Tug and the Willow Tree Tea Rooms. There is ample free parking.

We look forward to seeing you very soon!
